

Sales Analysis Dashboard Project Report

1. Project Overview

The Sales Analysis Dashboard project is an interactive business intelligence dashboard developed using Excel, Power Query, and Data Modelling techniques. The dashboard provides insights into revenue, profit, customer segments, order status, regional performance, and product-wise analysis. This project demonstrates practical data analytics, data transformation, and dashboarding skills.

2. Project Objectives

- Analyze total revenue, profit, and quantity sold.
- Track monthly and quarterly sales performance.
- Identify highest revenue and highest profit products.
- Analyze customer segments and order status.
- Monitor state-wise and region-wise sales trends.
- Build an interactive and business-friendly dashboard.

3. Dataset Information

- Sales Dataset: 200 Rows
- Customers Dataset: 150 Rows
- Orders Dataset: 200 Rows
- Products Dataset: 50 Rows

The project uses multiple related datasets for performing data modelling and creating interactive business insights.

4. Important Dataset Columns

- OrderID
- Date
- Region
- Product
- Category
- Sales
- Profit
- Quantity
- CustomerID
- Customer Name
- Age

- Gender
- City
- Segment
- ShipMode
- Status
- ProductID
- Product Name
- Cost
- Price

5. Tools & Technologies Used

- Microsoft Excel – Data Storage and Dashboard Development
- Power Query – Data Cleaning and Transformation
- Data Modelling – Creating Relationships Between Multiple Tables
- Pivot Charts & Pivot Tables – Dashboard Visualizations

6. Dashboard KPIs

- Total Revenue: 7.38M
- Average Order Value (AOV): 1,476,450
- Total Profit: ₹275,288
- Total Quantity: 378

7. Dashboard Features

- Monthly Total Revenue Trend
- Highest Revenue Product Analysis
- Highest Profit Product Analysis
- Revenue by Age Group
- Customer Segment Distribution
- Order Status Analysis
- Quarter-wise Revenue Analysis
- Revenue by State and Region
- Interactive Filters for Product, Segment, Status, and Region

8. Key Business Insights

- Laptop generated the highest overall revenue.
- Monitor category achieved the highest profit.
- Home Office segment contributed the highest customer share.
- South region generated the maximum revenue contribution.

- Most orders were either cancelled or delivered.
- Youth age group contributed the majority of sales.
